# ABOUT US

**TECH36GARH is a well-known organization in the technology and innovation sector. Our focus lies in creating school management software and establishing advanced Robotics Labs in schools to nurture students' creativity, critical thinking, and hands-on learning. As a Website Designing & Software Development Company, we offer a range of digital services including website development, software development, Android apps, ERP systems, business software, BULK SMS, RFID card-based attendance systems, and more tailored to our clients' needs. In today's dynamic tech environment, robotics and automation are crucial. Our goal is to give students hands-on experience in robotics, programming, and engineering through specialized Robotics Labs in schools equipped with modern robotic kits and programming tools for a comprehensive learning journey.**

**1**

## **Problem 1**

The school needs a well-organized student management software system for enrollment, registration, and class assignments to maintain precise records and facilitate smooth communication.

**2**

## **Problem 2**

There is a requirement for a complete student management solution to monitor academic progress, create reports, and manage staff efficiently.

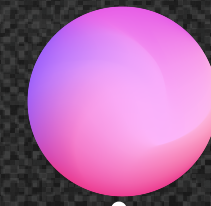

**3**

## **Problem 3**

Our school requires an attendance management platform that offers easy recording, seamless integration, and flexible tracking methods to improve precision.

# Proposed Solutions and Services

We create software for educational institutions based on 'Cloud/Server and Internet/Intranet technology' in accordance with the leading world standards in the field of IT.

**SCHOOL MANAGEMENT SOFTWARE**

**RFID CARD ATTENDANCE SYSTEM \*\*\***

**WEBSITE DESIGNING**

We offer variety of plans based on the requirements and services.

# What makes us different?

## **Bus Tracking**

This facility is highly beneficial for parents as it allows them to track their child's bus, pick up their children promptly, and avoid waiting at the bus stop.

## **Career Guidance**

We provide career guidance and counseling sessions led by industry experts to help children achieve great things.

## **SMS Facility**

Parents will receive SMS notifications about the fees and their child's absence. Additionally, the administration can send quick and important messages to all parents simultaneously.

## **LEDGER**

The account panel provides a summary of the total credit/debit amount, as well as information on loss/profit and received/pending transactions.

# Other Services we provide

Manufacturing of 3D printers and project development services.

ATL labs/Robotics Labs Setup and Teacher trainings.

Startup Consultation and Documentation services.

Analytics and trend analysis reporting and inferences on products and services.
